Theory of Change 2022

VISION: Residents invest in each other to sustain a high quality of life with active communities where resources are available for success.

Child & Adult Food Program (CAFP)

Our Mission

OnTrack Greenville is a community initiative to ensure students stay on track toward high school graduation and post-secondary success.

Students who are struggling often begin disengaging from school during the middle school years. If we intervene in these critical years, we can stop disengagement before it happens and help those students stay on track to a bright and productive future.

By mobilizing people and resources that eliminate barriers to success for students, families and educators, we are building a Greenville County where all students have the tools and opportunities to achieve their full potential, graduate from high school, and become contributing members of their communities.
